

Characteristics

- required for use in a set with SLZA 02xx, where it switches solenoid valves
- required for use in a set with SLZA 04x, where it switches contactors in single-phase devices
- mounting on a DIN rail in the switchboard cabinet

Technical Specification

Supply voltage	24 V DC
Power input	max. 1 W + (1-12 depending on the number of valves * 6.5 W)
Number of modules	4,15

Supply Specification

SLZA 15A - Supply No. 88151 distributor of solenoid valves and contactors
